	7. THE PRIMARY ITEM IS THE M-13 DECONTAMINATING APPARATUS, LIN D81537. HOWEVER, THE M-11 DECONTAMINATING APPARATUS, NSN 4230-00-720-1618, MAY BE USED IN LIEU OF THE M-13, TO MEET PECULIAR NEEDS. TOTAL COMBINED ALLOWANCE FOR THE M-11 AND M-13 WILL NOT EXCEED THE QUANTITY AUTHORIZED FOR EACH SEPARATE ITEM.						
	8. AUTHORIZED IN LIEU OF, BUT NOT IN COMBINATION WITH, STATIC FREE CARPET IAW APPENDIX E, PARAGRAPH E-5B, CTA 50-909.						
	9. ONE EACH M42 ALARM UNIT IS ISSUED WITH LIN A32060. THIS EQUIPMENT CAN ONLY ACCOMMODATE A MAXIMUM OF FIVE.						
	10. (NOT USED)						
	11. (NOT USED)						
	12. (NOT USED)						
	13. AUTHORIZATION IS IN ADDITION TO MASK OXYGEN AVIATORS: MBU-12/P, LIN M13241, IN CTA 50-900.						
	14. AUTHORIZED FOR LOCAL PURCHASE BY THE INSTALLATION COMMANDER WITHIN THE PROVISIONS OF THE FEDERAL ACQUISITION REGULATION. USING UNIT HAS THE RESPONSIBILITY TO ASSURE THE RAFTS ARE EQUIPPED TO MEET FAA/FAR PART 91. THE SYSTEM MANAGER HAS THE RESPONSIBILITY TO ASSURE COMMERCIAL LITERATURE, INSPECTION, AND MAINTENANCE CRITERIA MEET THE REQUIREMENTS OF TM 5-4220-202-14 AS A MINIMUM. MAINTENANCE SUPPORT WILL BE THE RESPONSIBILITY OF THE INSTALLATION COMMANDER AND WILL BE PROVIDED FROM COMMERCIAL SOURCES IF NOT AVAILABLE FROM SUPPORT UNITS.						
	15. A PRACTICE/TRAINER M13 DECON APPARATUS, NSN 4230-01-345-5172, IS AVAILABLE AS AN ALTERNATIVE FOR PEACETIME USE BY UNITS NOT AUTHORIZED TO STORE HAZ MAT DECON AGENT DS-2. THE BOI AND AUTHORIZATION IS THE SAME FOR EITHER ITEM. PRIOR TO UNIT DEPLOYMENT, THE BLACK PLASTIC TRAINING CONTAINER WILL BE REPLACED WITH A DS-2 FILLED CONTAINER, NSN 4230-01-136-8888, TO MAKE THE ITEM A FULLY OPERATIONAL M13 DAP.						

24. Tentage/Tarpaulins

a. Table 61 serves as a guide to maneuver and field exercise directors in the determination of quantitative Class IV Requirements, and serves as a guide to CONUS, oversea, and/or Task Force Commanders in the determination of quantitative Class IV Requirement in support of operations during peacetime as well as during mobilization.

b. Requirements for housing and storage are inversely proportional to the extent of construction and/or rehabilitation of indigenous facilities effected by the Chief of Engineers for the COMMZ

area. To the extent that the Commander, AMC provides tentage for closed type construction, 25 percent of this storage requirement will normally be met through the utilization of the tent general purpose medium and the balance through the utilization of tarpaulins and frames.

Notes:

1. THESE ALLOWANCES MAY BE APPLIED TO A SINGLE OR ANY SELECTED COMBINATION OF TARPAULINS.
2. CLASS IV TYPE AUTHORIZATIONS SHOULD NOT NORMALLY EXCEED THE USE OF 75 PERCENT TARPAULINS; THE BALANCE SHOULD BE TENTS AS INDICATED HEREIN.
3. ALLOWANCES OF TENTAGE AS SHOWN IN TABLE 61.1 APPLY TO PERSONNEL IN ZONES VI AND VII FOR HOUSING AND MESSING REQUIREMENTS AND WILL BE CONJUNCTIVELY AUTHORIZED.
4. STORAGE IS LIMITED TO 19 PERCENT OF OUTSIDE STORAGE REQUIRING COVER. SEE TARPAULIN 40 × 20 FEET AND TENT GENERAL PURPOSE MEDIUM.
5. ITEM USED PRINCIPALLY IN COLD CLIMATE AREAS.
6. AUTHORIZED FOR VEHICLES PRIMARILY UTILIZED TO MOVE PERSONNEL IN THE CARGO COMPARTMENT. VEHICLES USED TO TRANSPORT CARGO WHICH MAY BE DAMAGED BY EXPOSURE TO THE ELEMENTS MAY ALSO BE SO EQUIPPED. AUTHORIZED QUANTITIES WILL BE DETERMINED BY BN (OR COMPARABLE LEVEL) COMMANDER.
7. WHEN AN INSTALLATION HAS BEEN TASKED TO PROVIDE EQUIPMENT FOR ACTIVE ARMY OR USAR TRAINING REQUIREMENTS WHICH ARE NOT AVAILABLE ON A LOAN BASIS OR FROM USAR EQUIPMENT CONCENTRATION SITES (ECS), THE ITEMS AND QUANTITIES REQUIRED TO SUPPORT THE MISSION WILL BE DETERMINED BY THE INSTALLATION COMMANDER AND APPROVED FOR INSTALLATION STOCKAGE BY THE MACOM COMMANDER. APPROVED QUANTITIES SHOULD BE CONSISTENT WITH THE BASIS OF ISSUE IN CTA 50-909. THE APPROVED ITEMS WILL BE STOCKED AND ACCOUNTED FOR BY THE INSTALLATION CONSOLIDATED PROPERTY BOOK THAT SUPPORTS TRAINING.
8. ADDITIONAL TENT IS AUTHORIZED TO PROVIDE FOR INDIVIDUAL SEPARATION (MALE/FEMALE).

25. Targets, Target Equipment and Dummy, Inert and Miscellaneous Ammunition

Table 62 provides bases of issue which may be used to requisition and issue targets, target equipment and all items of dummy and inert ammunition listed herein for the support of assigned training missions. It also provides bases of issue which may be used to acquire ammunition in support of activities indicated below. Explosive type ammunition to be utilized for combat or training (except civilian guards assigned

to military installations) is not reflected in this table. Training ammunition, including competitive marksmanship program, is provided IAW AR 5-13, training ammunition management system. Expendable/durable targets are authorized in CTA 50-970.

26. Applicability of Table 62:

- a. *Targets, Target Equipment and Dummy and Inert Ammunition.* Table 62 prescribes the initial allowances of targets, target equipment and conventional supply class V procurement appropriations dummy

and inert ammunition for training authorized individuals and units of the United States Army, to include the ROTC and Reserve Components.

b. Miscellaneous Ammunition.

(1) Disposal activities—Destruction of duds and elimination of hazards on ranges.

(2) Emergency signals—Authorized for emergency signaling and marking purposes.

(3) Environmental Hazard Control—Relief of hydraulic pressure for flood control; prevention of natural disasters, to include avalanche control.

(4) Guard Duty—Authorized for military or civilian guards, as appropriate, for protection of US Government property and for training civilian guards assigned to military installations, to include prisoner guards.

(5) Installations—Installations in Continental United States and similar overseas installations.

(7) Rock Quarry Operations—Allowances for use in support of Rock Quarry Operations as specified herein.

(8) Saluting—Appropriate military honors at ceremonies; reveille and retreat firing.

(9) Site Security—Authorized for use by selected units to support site security mission.

(10) State Security—Quelling civilian disturbances by use of the National Guard (State Guard, where applicable).

(11) US Army Criminal Investigation Command—Operational allowances for special investigators.

(12) US Army Parachute Team—Authorized team for use in DOD programed demonstrations and training.

(13) USMA Clubs—Authorized for use by USMA military affairs and parachute clubs as indicated herein.

(14) Weapons Calibration—Authorized calibration firing.

(15) Weapons Test (repair and overhaul)—Test of weapons after repair, overhaul, or renovation.

(16) Wildlife Protection and Rodent Control—Elimination of predatory wildlife and destructive rodents.

(17) Installation Special Reaction Team (SRT)—For use in containing and/or neutralizing a special threat to the installation.

(18) Military Police—For use as operational ammunition when performing guard, police patrol, or investigative duties.

(19) Explosive Ordnance Disposal—For use as operational load when performing routine EOD disposal operations and high priority contingency missions.

c. Unless otherwise indicated, allowances in Table 62 are the maximum that may be on hand at any one time. Allowances herein will not be regarded as authority for automatic issue. Issues within the allowances will be governed by availability, regulated by commanders, and will be strictly confined to amounts necessary for the purposes listed herein.

d. Unit allowances are for company size units unless otherwise designated. Units of less than company size are authorized one-half of the allowances authorized for company size units.

e. If, at any time, full allowance is not available, installation stocks will be pooled and rotated so that all may receive maximum advantage from its use.

f. Units and/or activities equipped with caliber .30 weapons are authorized to requisition and expend ammunition based on the 7.62MM allowances contained in this Table.

g. Commanders will continuously review ammunition expenditures governed by the allowances contained herein to ensure that requirements are kept to the minimum consistent with effective accomplishment of the missions indicated.

h. Programing data required by the CG, AMC to convert the allowances of each item in this Table into quantitative requirements for a specified period of time will be obtained, as required, from MACOM and DA agencies concerned by direct coordination.
